- Communication skills
- Strong problem-solving abilities
- Attention to details
- Experience with UX/UI design tools, such as Figma
- Ability to work independently
- HTML 5
- CSS 3
- Node JS
- React JS
- Python
- GIT
- JavaScript
- Terraform
- MySQL
- Cloud Technologies (AWS)

## Experience

### Project Manager Tegs Construction Limited

**10/2017 to 07/2022**  
**Tema, Ghana**

- Focused on project monitoring and management by developing forecasts and tracking expenses.
- Created project plans with established timelines, assigned to appropriate teams and managed workflow throughout construction.
- Made changes to project scope and cost and implemented most effective change management processes to keep project up-to-date.
- Identified needs and coordinated resource allocation to deliver quality standards on time and within budget.
- Determined project staffing needs and led resource management.
- Reviewed project risks and devised proactive strategies to avoid potential roadblocks.
- Furnished project updates to various stakeholders, informing on strategy, adjustments and progress.
- Led meetings with internal team members, consultants and contractors.

## Achievements

- Successfully developed a fully functional ecommerce website utilizing HTML5 and CSS3, showcasing expertise in creating visually appealing and user-friendly interfaces for online businesses.

- Implemented cloud computing skills by provisioning and managing infrastructure on AWS using TERRAFORM, showcasing the ability to leverage cloud technologies for scalable and efficient web hosting.
  - Deployed personal websites using AWS Amplify and GitHub Pages, highlighting proficiency in deployment processes and utilizing version control systems for seamless website publishing.
  - Developed practical applications such as a tip calculator, band name generator and password generator, using Python programming, demonstrating problem-solving skills and proficiency in developing small-scale software solutions.
-
